

1.0 Purpose

TPG Fibre Operations Group, recognises that environmental conservation is one of the important issues of our community. As our company continues to grow, we are doing what we can to tread lightly on our planet. We know it takes a lot of energy to keep all our customers connected which is why we want to ensure that we are minimising the environmental impact of our business.

1.1 Environmental Policy Statement

On the road to minimising our environmental foot print, we shall:

- Run our operations in an environmentally sustainable manner;
- Promote a culture of responsible environment management; and
- Continue to improve our environmental performance.

We will implement and maintain an Environmental Management System aligning with ISO 14001 Environmental Management requirements, meaning we shall also:

- Comply with applicable environmental legislative requirements and standards and other initiatives we are signed to;
- Introduce pollution prevention practices, to efficiently use resources and reduce emissions/ waste;
- Build environmental 'better-practice' into our core business activities and management processes;
- Minimise the negative impact we have on the environment;
- Develop a framework for setting and reviewing our environmental objectives and targets, including key environmental performance indicators against facets of our operations; and
- Provide regular monitoring and reporting against these indicators to our staff.

Together we can make a difference, taking sustainable steps towards a cleaner, greener future.

Reggie Naik,

General Manager

Fibre Operations Group
